

Alabama Risk and Insurance Management Society (RIMS) Lunch & Learn

Cyber Security: The Do's and Don'ts of Handling Actual Events

The presenter will be John Ansbach with Aon Cyber Solutions/Dallas (Stroz Friedberg). John has developed internal cyber security programs for numerous companies and has been on the crisis management side providing direction to clients when they have had an actual cyber security incident or breach. He will relate real-life experiences that companies have had – what they did right and what they did wrong. He is a frequent speaker and author on topics related to cybersecurity and data privacy and has appeared as an expert in his field on numerous radio and television programs as well as authoring articles for trade journals and industry publications.

Thank you to Burr & Forman for hosting this event.

Education

Juris Doctorate, The University of Texas
School of Law
Master of Science, Cybersecurity,
University of Dallas (December 2023)
Bachelor of Science in Economics, Texas
A&M University

John Ansbach serves as Managing Director in Stroz Friedberg's Dallas office. In that role, John leads complex cyber security incident and breach response projects for companies and other organizations all over the world, including Fortune 100 and private equity firms. He also supports his clients in proactively building cyber resilience – through advisory, threat intelligence and testing work - to resist and defend against cyberattacks, and in handling digital forensic investigations, electronic discovery and litigation support matters overseeing data collection and processing projects.

John is a 25-year trial lawyer turned in-house counsel. He has more than 10 years of litigation experience and another 10 years of experience serving as a Chief Legal Officer and General Counsel to companies with national and international footprints. Immediately prior to joining Stroz, John served as General Counsel for a global technology company that supported commercial enterprises with cybersecurity, cloud, unified communication and networking, storage and compute solutions. In that capacity, John was responsible for all the legal affairs of the company, as well as the company's information security; international operations and compliance; and internal audit functions. He developed and implemented the company's first formal internal information security program, building a team and implementing technical and non-technical safeguards, processes and controls to help keep the company, its employees and customers secure.

John is a frequent speaker and author on topics related to cybersecurity and data privacy. He has appeared as an expert in his field on numerous radio and television programs, and he has authored numerous articles for Risk Management Magazine; the Association of Corporate Counsel; the American Law Institute; the Texas Lawyer; Corporate Counsel magazine; and The Texas Lawbook. John serves on the cybersecurity advisory board of Southern Methodist University and is a member of the International Association of Privacy Professionals (IAPP).

John is a Certified Information Privacy Professional for the U.S. private sector (CIPP/US). He is also a cum laude graduate of Texas A&M University where he earned a Bachelor of Science degree in Economics. He earned his law degree from The University of Texas School of Law in Austin and will complete his Master of Science degree in Cybersecurity in December 2023.
