Deans List-Every semester at Mizzou

Computer Skills: Extensive experience with Microsoft Excel, and other Microsoft office applications.
Moderate experience with SAP, Tableau, and Microsoft Access

Why are you applying for an internship in risk management? It's a growing field that is vital to
public companies. An internship involving risk management is a valuable opportunity to get
experience in an area that interests me and will be applicable in the Accounting field.

What risk management courses have you taken? Risk Management was a section in my Accounting
Informations systems class.
